Biography

Xavier Casanueva is a Paris-based photographer who artfully navigates the line between fashion and documentary photography, crafting evocative editorials, ethereal portraits and contemplative still life. Leading with a cinematic style, he combines unique compositions and thoughtfully framed subjects with a refined eye for color and perspective, infusing each photograph with a sense of intimacy and depth. The fascination with capturing understated elegance and uncovering beauty in both everyday moments and meticulously crafted scenes drives Xavier to continually expand his creative horizon and body of work.

Xavier's signature treatment lead him to collaborate with Sportmax, Peter Do, Arket, the Frankie Shop etc.
